

State Agency Natural Resource Plans and Programs Index

Preliminary Draft

State of Nevada agencies have a wide range of natural resource management and conservation responsibilities. This index of natural resource plans provides snapshots of the state's resource planning and program activities. In addition to plans developed by the divisions and special programs within the Department of Conservation and Natural Resources, the list includes those prepared by other state agencies involved in resource management, including the Department of Agriculture, Division of Minerals, and the State Historic Preservation Office.
